

# SEVENTH GRADE NEWS

April 30 – May 4

## SCIENCE NEWS

SCIENCE WEBSITE

<http://chippewascience7.weebly.com/>

**Standard:** Students can identify that substances are classified according to their properties, such as acids.

Science Fair: Students should have already purchased a large tri-fold board for their Science Fair Project so they can start putting items on the board. Students have completed their question, hypothesis, materials, procedure and their references. They have typed this in Google Docs and they need to print this out. We started a second progress “picture” check on Friday. This is due tomorrow. Parents can email me a picture or students can show me on their phones. The projects are showing excellent progress.

We will have a quiz on acids, bases and pH on Wednesday. We will be starting Chemistry at the end of this week. If you have questions or concerns, please email me at [chip\\_coney@tccsa.net](mailto:chip_coney@tccsa.net).

### Homework

Monday	Science Fair
Tuesday	Study for the quiz
Wednesday	Science Fair
Thursday	Science Fair
Friday	Science Fair

### **7<sup>th</sup> Grade Writing**

**April 30-May 4, 2018**

A HUGE thank you to all the parents who sent in snacks (we have enough to cover both math days of testing, too☺)! And, a SUPER SHOUT OUT to Liz Douglas for helping each student have an inspirational notecard if one wasn't sent in before testing started!!! Students have been given a half sheet of paper listing all of the end-of-the-year assignments. Please nudge them to keep on top of these since the last 20 days will go by quickly. Feel free to let me know if you have questions about what we are doing in class.

- 4/30-5/11 – Novel or Video Game Project; Senior Self Letter; Portfolio Checklist
- 5/14-5/18 – Novel or Video Game Presentations; Letter to next year's 7<sup>th</sup> graders
  - 5/21-5/25 – CMS Carnival; Selfie (NEW PICTURE, PLEASE); Slam Poetry

# Mr. Geiser's Weekly

April 31st-May 4th

7<sup>th</sup> and 8<sup>th</sup> Grade Math- We will be doing test prep all week. Students will have study sheets that they can use to work on khan academy and edulastic activities. They will also be up all week working on common math facts in their opportunity period. Please encourage them to push through these next couple of weeks to get to the end of the school year.

## Reading

This week we are reading books in class and summarizing chapters as well as writing about setting. We are also adding new vocabulary from the books.

Library- On Wednesday we are going to the library to the Book Fair! It is buy one get one free! This is a great opportunity to get some books for summer reading.

Skills: We will be practicing summarizing, character development and vocabulary.

Assessment: MAY 8TH- STUDENTS NEED TO BE PREPARE TO ANSWER QUESTIONS ABOUT THEIR INDEPENDENT BOOK!
