Vision of Excellence - Teach, Inspire, Reach

Dear Chippewa Local Families,

As many of you know the state report card was released yesterday. The data reported is not accurate because the district had a reporting error with the testing data. Value-added is a collection of all students' growth of every state test taken. Therefore, all value added letter grades are inaccurate. We want to make our families aware when you see this in the newspaper or online not to be alarmed by some of the letter grades. As shown in our scores below our district continues to do very well on our state assessments and will continue to educate our students at the highest levels. The district is working with the Ohio Department of Education to correct the errors so this does not happen in the future. The accurate data for each tested area is as follows:

3rd ELA - 81%
4th ELA - 78%
5th ELA - 83%
6th ELA - 76%
7th ELA - 82%
8th ELA - 73%
ELA I - 86%
ELA II - 83%
3rd Math - 87%
4th Math - 87%
5th Math - 76%

6th Math - 80%
7th Math - 62.5%
8th Math - 75%
Algebra I - 88.7%
Geometry - 79%
5th Science - 89%
8th Science - 89.5%
Biology - 94%
American History - 95%
American Government - 90%

If you have any questions or concerns call your building principal or the Director of Instruction.

Sincerely,

Todd Osborn
Superintendent
